

## November 6<sup>th</sup>, 2008 Conf call – 2 to 3 pm (Paris, Madrid, Berlin time)

13 Attendees:

Matthew Smith - Canada  
Nicolas Fournier - Canada  
Christel Daniel – France  
François Macary – France  
Jean-Christophe Cauvin – France  
Wendy Scharber - US  
Anna Orlova - US  
Sandy Thames - US  
Wendy Blumenthal - US  
Mary Kennedy - US  
Thomas Schrader – Germany  
Antonio Gonzalez – Spain  
Marcial Garcia – Spain

- 1) Unanimous approval of the 12 Change Proposal for PAT TF 1.0.  
They'll be integrated by François for Nov. 13rd and made available on the ftp server as well as the PAT googleGroup space (temporarily).  
Review is due on Nov. 20<sup>th</sup>  
PAT TF 1.0 for Trial Implementation shall be published on [www.ihe.net](http://www.ihe.net) immediately after that.
- 2) New profile for feeding registries:  
[Reporting Anatomic pathology to registries or public health repositories \(IP\)](#)
  - NAACCR builds its new release of implementation guide based on 2.5.1 . Will not be available until after January. (Lori Havener + NAACCR Pathology WG, helped by Ted Klein)
  - We exchange ideas on it on the way, so that IHE provide continuous feedback to NAACCR.
  - In the meantime IHE PAT moves forward on volume 1: business analysis, use cases, activity diagrams, process flow diagrams
  - Duality between community based cancer registries and hospital based cancer registries.
  - Try to get participation from registries stakeholder:
    - Spain – Malaga, Castilla de la Mancha. (Marcial)
    - Germany (Thomas, Anna)
    - The Netherland, UK
    - International Society of Cancer Registries (Wendy)
- 3) Value Sets in anatomic pathology White Paper
  - Participation of CAP would be appreciated.
  - 1<sup>st</sup> step: Collect the different national viewpoints on these code sets. Identify the existing national projects before reinventing the wheel.
  - Conf call early January
  - Then face to face meeting with CAP during HL7 WGM in Orlando (January 11-16):  
François will request a time slot (a quarter) to HL7 Pathology WG cochairs, for a joined meeting with IHE PAT.
- 4) Anatomic Pathology Structured Reports White Paper  
Standards: CDAR2 is a reasonable candidate.  
Check XD-LAB content profile built by IHE LAB.

Identify the existing national projects.

The 2 white papers should stay separate, since terminologies are not only useful for documents but also for messages.

**Next conf call on the 2 WP is planned for January 8, 2pm to 4 pm (Berlin, Madrid, Paris time)**

5) Other topics:

Prepare a presentation of IHE PAT to be presented by Wendy Scharber at Chicago during NA connectathon (Christel, François, Wendy, ... work on it)

Meeting was adjourned at half past three (Paris time).
