

IHE-RO Planning Committee

Monday, August 22, 2011

Conference Call

3:00-4:00pm ET

Attendees:

Carnell Hampton
Rupak Das
Sha Chang
Peter Balter
Juan Carlos Celi
Rishabh Kapoor
Nick Linton
Dave Nikolai
Akkamma Ravi
Colin Field
Mark Pepelea
Jeff Yue
Bill Simon
Zhe (Jay) Chen
Richard Popple

Mary Feng
Adam Earwicker
Ramesh Rengan
Kevin Riddell
Mika Miettinen
Bruce Curran
Jatinder Palta
Tracy Bray
Kevin Albuquerque
Andy Fuller
Rene Velasquez
M. Salehpour
Bridget Koontz
Yan Yue

ASTRO Staff:

Sidrah Abdul

I. Call to Order

- a. Minutes from the July 25 conference call were approved.
- b. Ramesh Rengan reviewed the action items from the previous minutes.

II. Reports and Updates

a. Use cases for 2010-2011 Development Cycle (Field)

Colin Field reviewed the 2010-2011 development cycle. The Prescription Automation and Structure Templates use cases are still pending standards from IHE.

Rishabh Kapoor reported that the TC is continuing work on the Workflow Exchange profile.

b. 2011-2012 Development Cycle (Colin)

- The most recent poll results for the use case prioritization were reviewed:

1. Integrated Patient QA Checker
2. Treatment Delivery Device Data Integration
3. On-Line Image Review*
4. Radiation Oncology Workflow Exchange with HIS
5. Dose Compositing*

6. Multi-Modality*

- It was decided that On-line image review should not be considered as a use case. Currently the content is more fitting for a white paper. This use case may be re-submitted in future years.
- Bruce Curran reported that Dose Compositing and Multi-Modality should also not be on the list, as the TC is near completion on these use cases.
- There was discussion that the process for the development cycle should be revised. It might be better that use cases that are 'work in progress' not be offered to vote on. Every year there would be a new batch of use cases. The PC would determine the bandwidth with the TC before voting.
- Bruce Curran suggested updating the Wiki page to make it more interactive between PC and TC.
- More discussion on this is needed and will continue at the PC meeting September 12.
-

III. Promotional Subcommittee (Ravi/Able/Rengan/Abdul)

- **IHE-RO Flyers:**
 - The final flyers developed by the ASTRO design team were shown. There were some suggestions to revise the text "Communication should be the least of your problems."
 - Communication should be "data communication" or "system communication"
 - "Problems" should be changed to concern or worries
 - Overall, committee liked the flyers.
 - **ACTION:** Sidrah Abdul will circulate a survey for the committee to vote on their top 2 flyers for printing for the ASTRO Annual Meeting.
- **IHE-RO Webinar**
 - Colin Field will be doing an IHE webinar for Radiation Oncology on September 1, 2011 at 10:30 - 11:30 am CDT
- **IHE-RO SAM**
 - A small group within the Promotional Committee is working with the ASTRO Education Department to create a SAM (Self-Assessment Module) on IHE-RO.
 - A SAM satisfies one component of the MOC (Maintenance of Certification) requirements.

IV. Other Business

None discussed.

VI. Tentative Future Meetings

Face-to-face Meetings:

- 2011 Connectathon – Sept 12-16, 2011
- PC Meeting- September 11th-12th, 2011
- ASTRO Annual Meeting October 2-6, 2011

V. Adjourn
