Decisions and Actions

Decisions and Action Items	Person responsible	Timeline
<p>1. The group discussed the Demonstration Scenarios for the 2008 AAO Showcase. This year, there will be one starting point instead of two, based on group agreement earlier this year that this would work better and be less confusing to the attendees. The flow diagram from 2007 would still work, because it would be more work for the Order fillers to have to be able to receive messages from both Order placers. The group decided that the works in progress would be labelled as such and would be placed in a group of other vendors so that if the attendee wanted to have a bill generated, they would have the option to do so. The group also decided that if there were a refractive instrument vendor, they would like to include in the demonstration an automatic order scenario. Also, if there was an evidence creator, this could also be included in the demonstration scenarios.</p> <p>The group discussed whether Connectathon testing was required for all Showcase participants. This decision was made earlier this year but the group may wish to discuss this further. Also, because of new releases of software, at some stations, attendees won't actually be able to acquire their own image, but rather a test image will be provided. The group thought this would be okay for the demonstration purposes.</p> <p>The group also reviewed the Code Tables from the 2007 AAO Showcase. This will need to be updated for any new modalities.</p> <p>Mike will work on revising the demonstration scenarios and code tables and send it out early next week for the group to comment upon. This will be discussed at the August 21 webinar by Mike.</p>	Mike	8/20/08
<p>2. Flora reminded the group about the August 21 webinar for all Connectathon and Showcase participants, 9:00 a.m. –</p>	All	8/21/2008

3:00 p.m. Eastern Time. A revised webinar agenda was sent out on 8/14. If anyone needs webinar information, please contact Flora.		
3. The group reviewed and gave detailed comments about Dr. Wedemeyer's powerpoint presentation to the AAOE meeting at the Academy's Annual Meeting. This is housed on the AAO's ftp site and is available for others' use and repurposing for IHE Eye Care education. Linda will revise the slides.
