1 Call to Order

The meeting was started at 10:00am ET.

2 General

- Thomas created TDOR Rev 1.1 addressing PC feedback as well as additional (editorial) comments from IBA.
- Thomas walked the group through the comments. Most items could be resolved. Some items resulted in longer discussions, e.g. single vs. multiple UPSs scheduled into the same treatment session or how many recording UPS the TMS has to expect for a single treatment sessions. Consensus was to formulate the profile in an agnostic way and not to be too constraining. Thomas to add clarifying statements about this into the Concepts section of TDOR (already added to Rev 1.1).
- A few items need to be discussed with David/IBA in the next scheduled DPDW call.
- TDOR Rev 1.1 was uploaded to Box:
<https://aapm.box.com/s/cj9hvhxgqasdiillcr0r536lsv7ucbay>.
- Thomas provided an outlook that he worked on a “DPDW Whitepaper” addressing FHIR/FHIRcast for the workflow channel as an option to DICOM Unified Worklist Unified and Procedure Step. The plan is to present this whitepaper during the Oct IHE-RO TC meeting.

3 Adjournment

The meeting was adjourned at 11:20am ET.
