Bedfast	Confined to bed	Bed-ridden (finding)	160685001				
Walks frequently	Walks outside of room at least twice a day and inside room	Able to walk (finding)	282144007	Frequent (qualifier value)	70232002		
Walks occasionally	Walks outside of room at least twice a day and inside room	Able to walk (finding)	282144007	Occasional (qualifier value)	84638005		
Charifast	Ability to walk severely limited or nonexistent. Cannot bear own weight and/or must be assisted into chair or wheelchair	Confined to chair (finding)	160684002				
Inadequate nutrition	Rarely eats a complete meal and has decreased protein intake	Finding of nutritional status (finding)	366364004	Inadequate (qualifier value)	71978007		

Sensory perception unimpaired	Responds to verbal commands. Has no sensory deficit that would limit ability to feel or voice pain or discomfort	Normal perception (finding)	247700009				
Completely limited sensory perception	Unresponsive (does not moan, finch, or grasp) to painful stimuli, due to diminished level of consciousness or sedation OR limited ability to feel pain over most of body surface.	Agnosia (finding)	42341009				
Very limited sensory perception	Responds only to painful stimuli. Cannot communicate discomfort except by moaning or restlessness OR has a sensory impairment which limits the ability to feel pain or discomfort over 12 of body.	Limited sensory perception (finding)	425403003	Very (qualifier value)	260358002		
Slightly limited sensory perception	Responds to verbal commands. Cannot always communicate discomforts or need to be turned OR has some sensory impairment which limits ability to feel pain or discomfort in 1 or 2 extremities.	Limited sensory perception (finding)	425403003	Slightly (qualifier value)	425404009		
Rarely moist skin	Skin is usually dry, and linen only requires changing at routine intervals	Moist skin (finding)	16514006	Rare (qualifier value)	89292003		
Mobility	Ability to change and control body position	Able to mobilize (finding)	302042005				
Completely immobile	Does not make even slight changes in body or extremity position without assistance	Does not mobilize (finding)	302045007				

Very limited mobility	Occasional slight changes in body or extremity position but unable to make frequent or significant changes independently	Reduced mobility (finding)	8510008	Very (qualifier value)	260358002		
Slightly limited mobility	Makes major and frequent changes in position without assistance	Reduced mobility (finding)	8510008	Slightly (qualifier value)	425404009		
Frequently Inadequate		Frequent (qualifier value)	70232002				
Rarely Adequate		Inadequate (qualifier value)	71978007				
		Rare (qualifier value)	89292003				
		Adequate (qualifier value)	88323005				
Very poor		Poor (qualifier)	255351007	Very (qualifier value)	260358002		
Excellent		Excellent (qualifier)	425405005				
No problem apparent	1 Problem: Requires moderate to maximum assistance in moving. Complete lifting without sliding against sheets is impossible. Frequently slides down in bed or chair, requiring frequent repositioning with maximum assistance. Spasticity, contractures, or agitation leads to almost constant friction.	problem (finding)	55607006	Absent (qualifier value)	2667000	Does not move in bed (finding)	301684000
Potential problem	2. Potential problem: Moves freely or requires minimum assistance. During a move skin probably slides to some extent against sheets, chair, restraints, or other devices. Maintains relatively good position in chair or bed most of the time but occasionally slides down.	Problem (finding)	55607006	Potentially abnormal (qualifier value)	394845008	Difficulty moving up and down bed (finding)	301697003

Problem present	3. No apparent problem: Moves in bed and in chair independently and has sufficient muscle strength to lift up completely during move. Maintains good position in bed or chair at all times.	Problem (finding)	55607006	Present (qualifier value)	52101004	able to move up and down bed (finding)	301693004
